## EDUCATION

<b>CUNY - Queens College</b> <i>Bachelor's, Computer Science</i>	<b>July 2022 - December 2023</b>
<b>CUNY - Queens College</b> <i>Bachelor's, Music Education</i>	<b>August 2015 - January 2020</b>

## PROFESSIONAL EXPERIENCE

<b>Jorge Robles</b> <i>Freelance Software Developer</i>	<b>New York, NY, USA</b> <i>September 2022 - Present</i>
<ul style="list-style-type: none"><li>Streamlined educational processes by developing a Java and Python-based scheduler for music lessons, achieving a 99% reduction in manual scheduling efforts and enhancing operational efficiency by 90%.</li><li>Pioneered the integration of AI for academic advising with the "Queens College Computer Science AI Advisor," employing Flask, JavaScript, and OpenAI's GPT technology, which led to a 95% time saving in academic planning for computer science students.</li></ul>	
<b>CUNY - Queens College</b> <i>Code For All Workshop Developer</i>	<b>New York, NY, USA</b> <i>January 2023 - Present</i>
<ul style="list-style-type: none"><li>Successfully led monthly workshops for over 40 students, enhancing their continuous learning and adaptability in software engineering as evidenced by consistent positive feedback and increased workshop engagement. Achieved a comprehensive learning experience by adopting a cross-functional approach to cover both front end (UI/UX, React.js) and back end (Node.js, Python) development.</li></ul>	
<b>New York City Department of Education</b> <i>Music/Band Teacher</i>	<b>New York, NY, USA</b> <i>August 2021 - September 2022</i>
<b>Roosevelt Union Free School District</b> <i>Assistant Band Director</i>	<b>Roosevelt, NY, USA</b> <i>January 2021 - August 2021</i>
<b>New York City Department of Education</b> <i>Substitute Teacher</i>	<b>New York, NY, USA</b> <i>January 2020 - December 2020</i>

## PROJECTS & OUTSIDE EXPERIENCE

<b>QCCS AI Advisor</b> <i>Lead Full Stack Developer</i>	<b>New York, NY, USA</b> <i>February 2024 - February 2024</i>
<ul style="list-style-type: none"><li>Spearheaded the development of first place award winning "Queens College Computer Science AI Advisor" at HackCUNY, utilizing Flask, JavaScript, OpenAI's GPT technology, and Tailwind CSS, significantly enhancing the academic planning process for computer science students.</li><li>Engineered a custom mini-framework with vanilla JavaScript, improving the application's load time and responsiveness by over 50%, leading to a more streamlined user experience.</li><li>Integrated AI-driven personalized academic advice, resulting in a 95% reduction in the time students spend planning their academic schedules, based on preliminary user feedback.</li><li>Played a pivotal role in troubleshooting and refining the AI model's integration, reducing "hallucinations" in generated advice by 85% through strategic data manipulation and system message optimization.</li></ul>	
<b>Web Automation Project</b> <i>Lead Developer</i>	<b>March 2023 - April 2023</b>
<ul style="list-style-type: none"><li>Accomplished automated course scheduling and tracking akin to popular application Coursicle leveraging Selenium WebDriver, measured by the system's capability to intelligently match and enroll students into their desired schedules while handling edge cases and sending real-time notifications.</li></ul>	
<b>Music Lesson Schedule Builder</b> <i>Lead Developer</i>	<b>October 2022 - July 2023</b>
<ul style="list-style-type: none"><li>Leveraged Java's cross-platform capabilities to develop a desktop application using the Swing library, delivering a robust and user-friendly interface accessible on multiple operating systems without compromising functionality or performance.</li><li>Improved scheduling efficiency with a 99% reduction in total time spent by the client creating lesson group schedules based on preliminary feedback.</li></ul>	

## SKILLS

**Skills:** Python, Java, JavaScript, C/C++, Git, HTML/CSS, MySQL, SQL, React.js, Node.js, Express.js, Web Development, Agile, AI, Backend Development, Shell, REST APIs, Flask
